Heron – Work Related Learning

The Importance of Careers Education and Guidance

High-quality career education and guidance in school or college are critical to young people's futures. They help prepare them for the workplace by providing a clear understanding of the world of work, including the routes to jobs and careers they might find engaging and rewarding. They also support them in acquiring the self-development and career management skills they need to achieve positive employment destinations. This helps pupils choose their pathways, improve their life opportunities, and contribute to a productive and successful economy.

The Gatsby Benchmarks

The department expects all schools and colleges to use the internationally recognised Gatsby Benchmarks to develop a careers programme that increases opportunities for pupils to access everything from workplace experiences and personal guidance with a career adviser to engagement with employers, colleges, training providers and universities. The benchmarks are non-statutory but support schools and colleges by providing a framework to develop their careers programme in line with their legal requirements to offer independent career guidance to all 12 to 18-year-olds and pupils aged up to 25 with an education, health and care plan.

The benchmarks additionally aid schools in meeting their legal obligation to facilitate training providers' access, allowing them to demonstrate to pupils the opportunities provided by technical education and apprenticeships. The Gatsby Foundation has authored a guidebook outlining the eight Gatsby Benchmarks (page 9) and offering guidance on progressing towards reaching them.

Further benchmark toolkits for schools, colleges, and those working with pupils with special educational needs or disabilities (SEND) are available from The Careers & Enterprise Company, and The Gatsby Foundation provides Good Career Guidance for the SEND sector.

COMPASS – Careers Benchmark Tool

Compass, a no-cost resource available to educational institutions in England, facilitates a swift and effortless assessment of your career-related initiatives against the Gatsby Benchmarks, recognised as the eight benchmarks of optimal practice.

The tool was built in partnership with the Gatsby Charitable Foundation to help you easily discover your strengths and areas for improvement. Once completed, it will provide you with a confidential report and resources to help you achieve each benchmark.

The 8 Gatsby Benchmarks

1. A stable careers programme	Every school and college should have an embedded programme of career education and guidance that is known and understood by pupils, parents, teachers, governors, and employers.
2. Learning from career and labour market information	Every pupil and their parents should have access to good quality information about future study options and labour market opportunities. They will need the support of an informed adviser to make the best use of available information.
3. Addressing the needs of each pupil	Pupils have different career guidance needs at different stages. Opportunities for advice and support need to be tailored to each pupil's needs. A school's careers programme should embed equality and diversity considerations throughout.
4. Linking curriculum learning to careers	All teachers should link curriculum learning with careers. STEM subject teachers should highlight the relevance of STEM subjects for a wide range of future career paths.
5. Encounters with employers and employees	Every pupil should have multiple opportunities to learn from employers about work, employment, and the skills that are valued in the workplace. This can be done through a range of enrichment activities, including visiting speakers, mentoring, and enterprise schemes.
6. Experiences of workplaces	Every pupil should have first-hand experiences of the workplace through work visits, work shadowing, and/or work experience to help them explore career opportunities and expand their networks.
7. Encounters with further and higher education	All pupils should understand the full range of learning opportunities available to them. This includes academic and vocational routes and learning in schools, colleges, universities, and the workplace.
8. Personal guidance	Every pupil should have opportunities for guidance interviews with a career adviser, who could be internal (a member of school staff) or external, provided they are trained to an appropriate level. These should be available whenever significant study or career choices are being made.

Heron – Work Related Learning

Work-Related Learning at Heron

Heron is dedicated to providing all pupils in years 7 to 14 with a stable and structured Work-Related Learning programme that is in line with the eight Gatsby Benchmarks.

Every pupil enrolled at Heron possesses Education, Health, and Care Plans (EHCPs) and exhibits diverse Special Educational Needs. Our strategy for Work-Related Learning is meticulously devised and tailored to cater to each pupil's unique requirements.

We have a whole-school graduated approach to the WRL, with Key Stage 3 pupils having job roles in class and participating in work tasters within the school.

During key stages 4 and 5, the curriculum incorporates work-related learning and fosters independence in the pupils' approach to work. To enhance readiness, we offer pupils aged 13-19 to engage in experiential learning through internal and local work placements, accompanied by in-the-job assistance or guidance.

Additionally, they gain practical knowledge through entrepreneurial endeavours encompassing producing and selling personalised products, such as providing a car wash service in school. We offer Key Stage 5 pupils sector-specific lessons in Catering, Hospitality and Administration, Customer services, Horticulture, and Enterprise.

They learn a range of practical skills and gain a general understanding of these industries, which helps them raise their aspirations and enables them to make more informed career choices.

Post-16

Explore possibilities- Visit colleges for a Summer tour (Year 14).
Take part in an internal or external work placement – including travel planning
Contribute to an enterprise.
Record achievements, e.g., collating all your certificates in a folder. (Summer term)

How does Heron evaluate the effectiveness of its Work-Related Learning programme?

Destination data indicates the long-term impact of the careers provision at Heron. Compass, a careers benchmark tool, evaluates our career activity against the eight Gatsby best practice benchmarks. We work closely with our local businesses, charities, and services to create and implement a strategic careers record that is reviewed periodically. Our careers programme is reviewed annually.
