

## Programme of study for Numeracy for life

Progression Pathways Mathematics	
NUMBER Engage	<ul style="list-style-type: none"> <li>• Explore manipulatives in increasingly complex ways.</li> <li>• Observe the results of their actions with interest.</li> <li>• Remember learned responses over an extended period.</li> <li>• Begin to anticipate known events.</li> <li>• Begin to apply potential solutions systematically to problems.</li> <li>• Persistence becomes more established when interacting with an activity.</li> <li>• Begin to act spontaneously and independently during familiar activity</li> <li>• Begin to request familiar activities.</li> </ul>

Progression Pathways Mathematics – Number	PATHWAY 1
Number & Place Value	<ul style="list-style-type: none"> <li>• Shows an awareness of number activities and counting.</li> <li>• Anticipates an event/action when taking part in a familiar number activity</li> <li>• Participate in a familiar number activity.</li> <li>• Gains experience of numerals</li> </ul>

	<ul style="list-style-type: none"> <li>• Indicates 'one', e.g. finger/object/gesture/sound, etc...</li> <li>• Respond to words more and gone.</li> </ul>
Addition & Subtraction	<ul style="list-style-type: none"> <li>• Take part in activities concerned with adding a group of objects.</li> <li>• Take part in activities involving taking away from a group of objects.</li> <li>• Respond to words more and gone.</li> <li>• Shows an interest in counting.</li> </ul>
Multiplication & Division.	<ul style="list-style-type: none"> <li>• Take part in activities concerned with adding or taking away from a group of objects.</li> <li>• Be aware of cause and effect in familiar mathematical activities.</li> <li>• Responds to the words more and gone.</li> <li>• Anticipate, follow and join in matching activities when given a contextual clue.</li> <li>• Joins in a 1:1 matching activity with support.</li> </ul>
Fractions	<ul style="list-style-type: none"> <li>• Shows an interest in counting</li> <li>• Anticipate an event/action when participating in a familiar number activity.</li> <li>• Gain experience with numerals in the classroom and other activities.</li> <li>• Put marks or symbols alongside pictures when undertaking mathematical activities.</li> <li>• Begin to search for objects that have gone out of sight, hearing or touch, demonstrating the beginning of object permanence.</li> </ul>

PROGRESSION PATHWAYS FOR MATHEMATICS

NUMBER & PLACE VALUE

Create and Explore (Pathway 2)	Refine and Initiate (Pathway 3)	Consolidate and Apply (Pathway 4)
<ul style="list-style-type: none"> <li>• Join in with some familiar number songs, stories and games with assistance or encouragement.</li> <li>• Begin to realise that numerals represent quantities by counting in any order when playing with numbers.</li> <li>• Demonstrate an understanding of contrasting quantities when there is a marked difference.</li> <li>• Use emerging understanding of counting small amounts to solve simple problems practically.</li> <li>• In practical situations indicate the correct number from a choice of two.</li> <li>• Indicate one or two</li> <li>• Make groups of 'one' and 'lots'</li> <li>• Use concrete resources to record quantities.</li> <li>• Make pictorial representations showing quantities of groups.</li> </ul>	<ul style="list-style-type: none"> <li>• Join in rote counting to 5</li> <li>• Use practical methods to associate names and symbols with numbers.</li> <li>• Encounter and explore numerals 0-9 (and beyond)</li> <li>• Use practical methods – associate names and symbols with numbers.</li> <li>• Have some recognition of numerals 0-5.</li> <li>• Match numeral to numeral</li> <li>• Recognise that numbers record the number of objects.</li> <li>• Demonstrate understanding of 1:1 correspondence in a range of contexts.</li> <li>• Show an awareness of the vocabulary more or less in a range of contexts.</li> <li>• Relate numerals 0-5 to the correct quantity understanding that numerals always represent that quantity.</li> </ul>	<ul style="list-style-type: none"> <li>• Use ordinal numbers in different contexts.</li> <li>• Recite numbers in order from 0 to 10.</li> <li>• Recognise numerals 0-9 reliably</li> <li>• Relate numerals 0-9 to sets of objects.</li> <li>• Begin to record numbers of objects initially by making marks, progressing to simple tallying by making marks, progressing to simple tallying and writing numbers to 10.</li> <li>• Use language such as more and less to compare two numbers.</li> <li>• Recognise small numbers of objects without counting.</li> <li>• Count reliably up to 10 everyday objects showing understanding of 1:1 correspondence.</li> <li>• Know that numbers identify how many objects are in a set.</li> <li>• Match sets of objects to numerals that represent the number of objects.</li> <li>• Estimate how many objects they can see and check by counting.</li> </ul>

ADDITION AND SUBTRACTION		
Create and Explore (Pathway 2)	Refine and Initiate (Pathway 3)	Consolidate and Apply (Pathway 4)
<ul style="list-style-type: none"> <li>• Use emerging understanding of counting small amounts to solve simple problems practically with support</li> <li>• Demonstrate an awareness of contrasting quantities by making groups of objects with help.</li> <li>• Indicate 1 or 2.</li> <li>• Make groups of 'one' or 'lots'.</li> <li>• Use the term <b>one</b> and <b>lots</b>.</li> <li>• Realise that numerals represent quantities by counting in any order when playing with numbers.</li> </ul>	<ul style="list-style-type: none"> <li>• Use understanding of counting small amounts to solve simple problems practically.</li> <li>• Use the understanding of 'more'.</li> <li>• Match objects and images according to given criteria relating to number.</li> <li>• Demonstrate an understanding of more or less.</li> <li>• Demonstrate an understanding of 1:1 matching activities where there are not enough.</li> <li>• Realise when they have too many in 1:1 matching activity.</li> </ul>	<ul style="list-style-type: none"> <li>• Begin to use developing mathematical understanding, ideas, methods and counting to solve practical problems.</li> <li>• Continue to rote count onwards from any given number.</li> <li>• Remove or add one object to 10 and check how many are left by counting. .</li> </ul>

MULTIPLICATION & DIVISION.

Create and Explore (Pathway 2)	Refine and Initiate (Pathway 3)	Consolidate and Apply (Pathway 4)
<ul style="list-style-type: none"> <li>• Demonstrate an awareness of contrasting quantities by making groups of objects with help.</li> <li>• Begin to sort sets of objects according to a single attribute.</li> <li>• With support, match objects to picture/s.</li> <li>• Use an emerging understanding of counting small amounts to solve simple problems practically.</li> <li>• Use concrete resources to record and remember quantities or make pictorial representations showing quantities of groups.</li> <li>• Begin to match two sets that are equal.</li> <li>• Make groups of 'one' and 'lots'.</li> <li>• Use the terms one and lots.</li> </ul>	<ul style="list-style-type: none"> <li>• Use practical methods to associate names and symbols with numbers.</li> <li>• Realise that numbers and tallies can record the number of objects.</li> <li>• Copy simple patterns or sequences.</li> <li>• Use understanding of counting small amounts to solve simple problems practically.</li> <li>• Use the understanding of "more".</li> <li>• Copy simple patterns or sequences.</li> <li>• Understand the notion of sharing between a number of people.</li> <li>• Begin to use developing mathematical understanding and counting to solve simple problems encountered in play, games or work.</li> <li>• Respond appropriately to key vocabulary and questions.</li> <li>• Copy a pattern made by an adult.</li> </ul>	<ul style="list-style-type: none"> <li>• Understand the notion of sharing equally between a number of people.</li> <li>• Use tallies or other marks to represent quantities.</li> </ul>

FRACTIONS		
Create and Explore (Pathway 2)	Refine and Initiate (Pathway 3)	Consolidate and Apply (Pathway 4)
<ul style="list-style-type: none"> <li>• Develop an awareness of contrasting quantities by making groups of objects with help.</li> <li>• Begin to sort sets of objects according to a single attribute.</li> <li>• Use emerging understanding of counting small amounts to solve simple problems practically.</li> <li>• Use concrete resources to record and remember quantities or make pictorial representations showing quantities of groups.</li> <li>• Begin to match two sets that are equal.</li> <li>• Make groups of 'one' and 'lots'.</li> <li>• Use the terms 'one' and 'lots'.</li> </ul>	<ul style="list-style-type: none"> <li>• Use practical methods to associate names and symbols with number.</li> <li>• Realise that numbers and tallies can record the number of objects.</li> <li>• Use understanding of counting small amounts to solve simple problems practically.</li> <li>• Use the understanding of "more".</li> <li>• Copy simple patterns or sequences.</li> <li>• Understand the notion of sharing between a number of people.</li> <li>• Begin to use developing mathematical understanding.</li> <li>• Respond appropriately to key vocabulary and questions.</li> </ul>	<ul style="list-style-type: none"> <li>• Understand the notion of sharing between a number of people.</li> <li>• Use tallies or other marks to represent quantities.</li> </ul>

NUMBER & PLACE VALUE		
Investigate	Investigate	Investigate

(Pathway 4)	(Pathway 4)	(Pathway 4)
<ul style="list-style-type: none"> <li>• Continue to rote count onwards from any given number up to 20.</li> <li>• Estimate a small number of objects and check by counting.</li> <li>• Know numbers 0-10 relate to different but constant sizes of sets of objects.</li> <li>• Indicate first and last.</li> <li>• Start to record numbers of objects using numerals</li> <li>• Observe numerals 0-50.</li> <li>• Compare two given quantities of objects up to 10 communicating which is: Fewer/more/larger/smaller</li> <li>• Matches quantities</li> <li>• Find a given number to 10 find: -</li> <li>• Number before</li> <li>• After</li> <li>• One more /less</li> </ul>	<ul style="list-style-type: none"> <li>• Begin to talk about their work</li> <li>• Reads numbers 1 - 20 accurately.</li> <li>• Recognise numbers to 20 randomly.</li> <li>• Record number of objects using numerals up to 20.</li> <li>• Counts reliably up to 20 using a range of objects.</li> <li>• Count to at least 20 forwards and backwards.</li> <li>• Knows the number that is 1 more and 1 less than any number up to 20.</li> <li>• Order numerals from 0 to at least 20 in ascending and descending order.</li> <li>• Counts in ordinal numbers to 10.</li> <li>• Realises the relationship between ordinal and cardinal numbers.</li> <li>• Begins to use manipulatives to partition teen numbers into tens and ones.</li> <li>• Use the language: more than/less than (fewer)/most/equal to</li> <li>• Use the number facts they know to solve problems.</li> <li>• Identifies numbers in a range of contexts.</li> </ul>	<ul style="list-style-type: none"> <li>• Count 0 – 100</li> <li>• Counts forwards and backwards between 0 and 100.</li> <li>• Knows numbers in the counting sequence are getting bigger.</li> <li>• Reads numerals to 100.</li> <li>• Records number of objects up to 20.</li> <li>• Relates cardinal numbers to dates.</li> <li>• Knows the number that is 1 more or 1 less than any number up to 100.</li> <li>• Gives the empty set a value of 0</li> <li>• Use the language of: - Total Altogether Double Difference between</li> <li>• Knows which of any 2 numbers is the larger/smaller (up to 30)</li> <li>• Find the missing number from a simple sequence of numbers to 20.</li> <li>• Counts reliably up to 20</li> <li>• Partitions any number up to 20 into tens and ones (explaining the value).</li> </ul>

ENGAGEMENT STEPS  
( ENGAGE)

- Explore manipulatives in increasingly complex ways.
- Observes the results of their own actions with interest.
- Remember learned responses over extended period of time.
- Begins to anticipate known events.
- Begin to apply potential solutions systematically to problems
- Persistence becomes more established when interacting with an activity.
- Begin to act spontaneously and independently during familiar activity.
- Begin to request familiar activities.

## MEASURE

Money & time  
(Pathway 1) Experience

- Be aware of cause and effect in familiar mathematical activities.
- Through exploration, gain awareness of difference in time.

### Standard Units

- Have experience of using a range of standard and non-standard measuring equipment.
- Through exploration gain awareness of differences in
  - Length
  - Capacity
  - Mass
- Search for objects that have gone out of sight
- Matching objects of similar/same size

MEASURE Money and Time		
PATHWAY 2	PATHWAY 3	PATHWAY 4
(Explore & create)	(Refine and initiate)	Consolidate and Apply).
<ul style="list-style-type: none"> <li>• Experience exchanging coins in exchange for items in a practical context.</li> <li>• Encounter the vocabulary of time through daily discussion of days of the week and timetabled events for the day.</li> </ul>	<ul style="list-style-type: none"> <li>• Respond to some words, signs and symbols related to time.</li> <li>• Participate in the sequencing of pictures of two daily events.</li> <li>• Begin to be aware of the language of time used in everyday routines.</li> <li>• Begin to understand that different coins are used in the “real life”</li> <li>• Match objects and materials according to a model or picture.</li> <li>• Respond appropriately to key vocabulary and questions.</li> <li>• Begin to understand coins have different values.</li> <li>• Use 1p coins for items up to 5p and then 10p</li> <li>• Develop awareness of time through discussion about daily events and when they happen.</li> </ul>	<ul style="list-style-type: none"> <li>• Understand different coins have different values</li> <li>• Begin to use developing mathematical understanding and counting to solve simple problems involving coins.</li> <li>• Begin to be aware of and repeat the language of time.</li> <li>• Recognise order in the day through ordering significant events.</li> <li>• Links personal events to the passing of time.</li> <li>• Associate familiar activities and experience to seasonal changes.</li> </ul>
